

Welcome to TravelMatch 2021

Norway market – Thursday April 29th, 2021 Digital workshop

It is now possible for suppliers/sellers to register online for TravelMatch 2021! It has been decided to go ahead with this event, but as a virtual workshop, since there still seem to be some barriers for holding a physical event and for all of you to enter the country without quarantine requirements and other restrictions.

Because of the platform being online, and since we are fully aware of the financial challenges for travel and tourism industry, we shall offer a price that is considerably lower than the normal fee for attending. For all sellers attending, the price is **NOK 1.800** + 25 % vat (refundable by application to the Norwegian Tax Office after the event).

The deadline is a bit short on this occasion, **being March 1st**, or when the event is fully booked, but please let us know if you need more time.

Despite the challenging situation for the travel and hospitality industry, we find it important to maintain the network among partners in this industry, and to keep up our aim to act in a proactive way and to inspire for increased business shortly!

You will find more details about the event on www.travelmatch.no, but you may also request information by using the email meet@travelmatch.no or call +47-91198290.

The link for registration can be found under Sign up in the website, but you will also get it here:
<https://travelmatch2021.converve.io>

When you log into the registration, please fill in as much information as possible, to make sure to find the right partners.

Please also note that we always need to approve all registrations, making sure that the registered partners are meeting the criteria for being a seller and can benefit from attending. This includes some restrictions related to only a limited number of companies from each country. All this is only to secure the success of those partners attending the event. Still we shall also emphasize, that we are

providing a platform for interaction, and the requests and meetings are made directly among the participants.

The registration for buyers will open early March, and once we have a good number of buyers (i.e. sometime during March), we shall open for meeting requests through the system. Meetings can be requested by both sellers and buyers through the system, but all requests need to be approved by the other party to be entered into the meeting calendar. Since a request is blocking a time slot, unhandled requests will automatically be deleted after seven days. All meetings being accepted by the partner you would like to meet with, shall automatically be listed in the agenda for both parties.

The facilities of meeting rooms for you to have your dialogue with the partners has been developed by the supplier of the database where you register, and will take place through the same system. More details on the process shall follow later.

When you register, you need to create your own password. Please save this and use it to log in later, to make changes, check buyer information, request meetings, check your meeting schedule etc..

We are happy to welcome you to register for TravelMatch 2021, and look forward to see you online!

Best regards

The TravelMatch team

Arne Sundt-Bjerck
